BLOOMINGTON POLICE DEPARTMENT CRIME SCENE UNIT REPORT

EVIDENCE RECEIVING

On Thursday, 07/03/08, I received a sealed manilla envelope from the Illinois State Police Forensic Science Laboratory in Joliet. The envelope was sent via U.S. Mail. The envelope was labeled with I.S.P. case # P88-559, and Bloomington P.D. case # C88-1572. The envelope contained a DNA blood card. I created a new EJS property tag under this general case number, 200501758, which is a catch-all report for I.S.P. returns. I scanned the evidence transfer receipt into this report. I transferred the envelope to standard evidence locker # 8.

Nothing further at this time.

Supplemental Reporting PATROL SERGEANT DANIEL DONATH - BPD, ID # 5430

On 09/18/09, I received exhibit #1 from the Bloomington Police Department Records Division for the purpose of locating an item of evidence on BPD case #C91-2150. A court order had been issued directing that exhibit #2 (swabbing from floor) be analyzed. The original packaging for this exhibit had been taken to the ISP Crime Lab in Morton. They opened the original packaging and found nothing inside. Their notes indicated a forensic scientist had repackaged the item. That repackaged item was returned to us within exhibit #1 in this case. I opened the box containing all of the items. I located a small sealed manila envelope labeled by ISP as BPD case #C91-2150, #2 (floor) and #3 (control). I removed this envelope. I created an evidence label for it and affixed it to the envelope. I transferred this exhibit to BPD Crime Lab locker "A" in anticipation of transfer to the ISP Crime Lab in Morton. I resealed exhibit #1 and returned it to the BPD Records Division.
