On November 3, 1993 at 1545 hours, Detectives Crowe and Tom Sanders met with Danny Martinez at the Bloomington Police Department. Martinez is a witness to the William Little murder on March 31, 1991 and a written statement was given to Detective Crowe on April 1, 1991.

Detectives asked Martinez if he remembers the events of March 31, 1991 and he stated that he will never forget that night. He stated that he lived next door to the station and was over there everyday for something. Martinez stated that there was this kid that was a visitor at the station each night that Little worked except for the night of the robbery and this kid was even back three nights after the murder and used the phone at the gas station. Martinez stated that this has always bugged him. Martinez stated that on the night of the murder he and his wife had just got home and he drove his car to the Clark station and parked on the lot on the east side of the station at the air pump, with his car facing east. He did not notice the attendant when he first pulled in and thought that the attendant might have gone to the bathroom. Martinez stated that he left his car running and as he was putting air in his right front tire he heard two pops and thought his car was back firing. Martinez checked the other tires by just glancing at them and then he started for the door of the station and saw a male subject coming out backwards from the station door. At this time Martinez's car sounded as if it was going to die and Martinez turned around and looked towards his car and it was alright. After looking towards his car, Martinez turned back towards the station and the male subject that was backing out of the door had turned around and Martinez and the subject met face to face and they were about two or three feet from each other. This subject had his hands in his jacket pockets like he was holding something up under the jacket. This subject walked around the east end of the station and then turned and went north. Martinez stated he continued to the door of the station and was about to open it when someone yelled "stop, back up." There was a policeman crossing Empire Street and the policeman asked Martinez if Martinez had seen anyone and Martinez told the policeman about the subject that had gone north.

Note: Martinez stated that after the subject left and went north and before Martinez reached the door of the station, a guy in a black pick-up truck pulled right in front of the door to the station and got out of the truck and started for the door about the same time as Martinez did. When the policeman yelled at Martinez to stop, the guy just got back in his truck and left.

Martinez stated that after telling the policeman that the subject went north, the policeman asked Martinez if that was his car on the lot and when told that it was the policeman told Martinez to get it off the lot and at this time the policeman entered the station and another policeman came to the station lot from Linden Street and the officer came out of the station and told the second officer to get the bag.

Martinez stated that the suspect was a white/male in his 20's and he was about 5'08" or 5'09" tall and he was thin. He was wearing faded blue jeans and white low quarter tennis shoes and a baseball type hat. He had on a light weight windbreaker type jacket that was a dark color that was waist length or a little bit longer.
